- Problem Solving (courses)
- Leadership
- Working in a group
- C, C++, C#, Java, Dart, Flutter, React, JS, Kotlin, PHP, SQL, NoSQL, NodeJS, Rust

# Andrea Carzeri

## SOFTWARE DEVELOPER

## EDUCATION

### University of Trento

Bachelor Student in Computer Science  
2022 - Present

### Istituto di Istruzione Superiore Giacomo Perlasca

High School Diploma in Computer Science  
2017 - 2022

## WORK EXPERIENCE

### Cualeva - Software developer | May - August 2021

I initially started working at Cualeva through my school's work-study program. Noticing my initiative and quick learning, the company offered me a full-time position for the summer. During this experience, which was particularly formative for me, I learned Java, Android, and how to use APIs. At the end of this period, they offered me a permanent position, but I declined in order to continue my studies.

## OTHER EXPERIENCES

### Football | 2009 - 2022

I have always played soccer as a goalkeeper in semi-professional categories, which has allowed me to meet many people and work effectively in a team. I currently play on a non-professional basis.

### Summer camp animator | 2017 - 2020

I worked as a summer camp animator at my local summer camp, where I was responsible for organizing activities for the kids and overseeing their well-being. This role allowed me to express my creativity and experiment with team-building activities.
