University of Trento

Bachelor Student in Computer Science
2022 - Present (Graduating in September 2025)

Istituto di Istruzione Superiore Giacomo Perlasca

High School Diploma in Computer Science
2017 - 2022

WORK EXPERIENCE

Amazon Kids - Software Developer Engineer Intern | March - May 2025

During my Amazon internship, I gained significant hands-on experience in designing, developing, and implementing scalable software. I collaborated on building key features using AWS, Python, and TypeScript, consistently delivering clean and maintainable code. A core part of my role was debugging complex technical issues to maintain application reliability and scalability, all within Amazon's fast-paced, customer-obsessed environment.

Cualeva - Software developer | May - August 2021

During this experience I learned Java, Android. At the end of this period, they offered me a permanent position, but I declined in order to continue my studies.

OTHER EXPERIENCES

Football | 2009 - 2022

I have always played soccer as a goalkeeper in semi-professional categories, which has allowed me to meet many people and work effectively in a team.

Summer camp animator | 2017 - 2020

I worked as a summer camp animator at my local summer camp. This role allowed me to express my creativity and experiment with team-building activities.
